**THE
FULBRIGHT
AUSTRIAN
STUDENT
PROGRAM**

RECEIVE A GENEROUS SCHOLARSHIP TO GET A MASTER'S DEGREE AT A UNIVERSITY IN THE USA AS A FULBRIGHT STUDENT

Fulbright Austria provides generous financial and administrative support to Austrian students and young professionals interested in pursuing a master's degree in the USA. We work with our partners at the Institute for International Education (IIE) in New York to provide comprehensive support for our candidates that begins with coaching students on how to optimize their applications. Candidates identify programs of their choice in a wide range of disciplines, select and apply to four US universities, and often are accepted to multiple institutions. They chose the program in which they want to enroll, receive a scholarship of up to \$35,000 from Fulbright Austria, and are often offered additional support by the institutions they decide to attend. Once in the US, Fulbright students become members of the international Fulbright community and enjoy ongoing support from Fulbright Austria and IIE.

To apply, you must have completed your undergraduate education at an accredited institution (university or *Fachhochschule*), have strong English skills and a sound working knowledge of the field you hope to study, and be an Austrian citizen. Applicants for Fulbright scholarships are evaluated based on the strength of their academic record as well as their personal communication skills and social engagement.

STORY-TELLING

Fulbright has granted me a number of invaluable chances and rich experiences here: from learning Mandarin Chinese, over being trained by a set of incredible professors who are absolute experts and authorities in their fields, to a school-sponsored summer internship with the United Nations in New York City, I consider myself so very lucky for the doors that have been opened for me through Fulbright already.
